Service Plans help you to spread the cost of servicing

Our Service Plans are designed to be an easy way to budget for your car's servicing. Rather than paying for your servicing all at once, you spread out the payments over your chosen period of time. This allows you to spread the cost of regular servicing through simple monthly direct debit instalments, just like household bills.

What's more, if your car is bought through finance, then your Service Plan can simply be added to your monthly payments.

Inflation proof, fixed price, low cost servicing

The pricing is simple. Just decide how many services you'd like the Service Plan to cover and we'll calculate your monthly payment based on your anticipated annual mileage. You might be surprised to find that servicing your car costs less than satellite TV or a mobile phone each month.

As well as the advantage of being able to budget for your servicing, the fixed price means that the cost of your servicing is effectively inflation proof.

Plus there's no hidden interest - you just pay for the cost of servicing.

Service Plans are available for new and used vehicles

Service Plans are not restricted to new cars. Providing your car's servicing is all up to date, then all vehicles are eligible to take advantage of Service Plans, no matter what age or model you have.
